

Table 2 : Trend data of decayed teeth with occlusal caries in Year 6 children over 5 years

Appendix 3

School /Clinic/ District/ State :

Year	No. of teeth carious experience (D + F) (Include all teeth)	No. of teeth with occlusal caries experience (D + F)			
		All types (Class I and II)		Class I only	
		n	%	n	%
		1	2	3	3/1 x 100

* PG 307 (for year school children only) can be modified to yield these result

In this table, decay (D) does not include teeth indicated for extraction (X)

Class I - involving occlusal surface only

Class II - involving occlusal surface + other surfaces
